

# Tariffs Coin (TARIFFS) - Litepaper

Version 1.0 | June 2025

## 1. Introduction

Tariffs Coin (\$TARIFFS) is a meme-powered digital currency born from the chaos of global trade wars, sanctions, and tariff tensions. As political leaders fire economic weapons, we answer with humor, memes, and community power on the Solana blockchain. \$TARIFFS is not just a coin, it's a cultural protest in crypto form.

## 2. Tokenomics

Blockchain: Solana (SOL)

Token Symbol: \$TARIFFS

Total Supply: 1,000,000,000

Decimals: 6

Mint Address: D5LPX4irPb5cB1n31JTwQuzEMnWSAPrVCQAaFYoV78jb

Distribution:

- 100% Community Owned
- 0% Presale
- 0% Team Allocation
- 0% Venture Capital

All tokens are currently in community circulation, making \$TARIFFS a fair-launch meme currency.

## 3. Roadmap (Q2-Q4 2025)

## Tariffs Coin (TARIFFS) - Litepaper

- Q2: Project launch, website, logo, Telegram, and Twitter live
- Q2: Airdrop campaign & viral meme creation
- Q3: DEX listing (Jupiter, Raydium)
- Q3: Trending campaigns with crypto influencers
- Q4: Meme contest, NFT collaborations, and cross-chain memes

### 4. Use Cases

\$TARIFFS represents satire in finance. It's a digital monument to political absurdity and economic chaos.

Holders use \$TARIFFS to:

- Share memes, jokes, and crypto commentary
- Participate in community airdrops and NFT rewards
- Support community-driven marketing campaigns
